

Pre Strike®
MOSQUITO
TORPEDO
Day Control
with 5 pack

KILLS Mosquitoes
In Standing Water
Where They Breed

- ▶ Just place in standing water
- ▶ Each Mosquito Torpedo® treatment provides 60 days of protection
- ▶ No float design
- ▶ No unsightly debris
- ▶ Can be applied to areas used by or in contact with humans, animals or wildlife

ACTIVE INGREDIENT:
(S)-Methoprene (Dry Weight Basis) 8.62%
OTHER INGREDIENTS: 91.38%
TOTAL 100.00%

KEEP OUT OF REACH OF CHILDREN
CAUTION

Precautionary Statements, First Aid
NET WEIGHT: 0.95 OZ. (27g)

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Introduction: Pre-Strike® Mosquito Torpedo® (Mosquito Torpedo®) is an easy and effective way to kill developing mosquitoes in standing water before they become breeding, biting adults. With just one bite, adult mosquitoes may transmit West Nile virus and other viruses that can cause encephalitis in both people and animals. They may also transmit heartworm disease to dogs and cats. Mosquito Torpedo® slowly and continuously releases an insect growth regulator into water that prevents adult mosquito development for up to two months. For larger sites requiring application of two Mosquito Torpedoes, an additional package will be required for 300 day control. Mosquito larvae exposed to treated water will die in the pupal stage before they reach adulthood.

How to Apply: Simply place Mosquito Torpedo® in standing water where mosquitoes may breed. Remove only enough product from the package for immediate use. For best results, apply Mosquito Torpedo® before the beginning of the mosquito season, and continue as directed below in the Application table.

Application Site Size		Application Rate	Frequency of Application
Sq Ft	Water Depth		
< 100	< 2 ft	1 Mosquito Torpedo*	Reapply when product has dissolved
< 100	< 1500 (may periodically dry out)		
< 100	< 1500 (does not dry out)	1 Mosquito Torpedo*	Reapply on 60 day cycle throughout mosquito season
> 100	> 1500	2 Mosquito Torpedoes	Reapply on 60 day cycle throughout mosquito season

Application Sites: Mosquito Torpedo® controls mosquitoes in water-holding receptacles and standing water sites around your home. Apply this product as a preventative measure (pre-flood treatment) to application sites before they fill with water. Mosquito Torpedo® may also be used in sites that intermittently fill with water. It will begin releasing its active ingredient into water as soon as it becomes wet, and will remain effective for up to two months when continuously immersed in water. Do not apply to water that may drain into public waterways, such as streams or lakes.

Examples of application sites include, but are not limited to:

- | | | |
|------------------------|-------------------------------|-----------------------------------|
| Bird baths | Unns | Privately-owned ponds |
| Water gardens | Unused swimming pools or spas | Flooded areas |
| Foot gutters | Tree holes | Animal watering troughs |
| Old tires | Rain barrels | Man-made depressions |
| Pool covers | Garbage cans | Any other water-holding container |
| Ornamental fountains | Wheelbarrows | Standing water in your yard |
| Flowerpots or planters | | |

STORAGE & DISPOSAL: Store in cool, dry place. **Disposal:** If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS – HAZARDS TO HUMANS AND DOMESTIC ANIMALS – CAUTION: Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

FIRST AID

- Call a poison control center or doctor for treatment advice.
 - If in eyes • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.
 - If on skin or clothing • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes.
- Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-347-8272 for emergency medical treatment information.

ENVIRONMENTAL HAZARDS: Do not apply to water that drains into public waterways.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. To the extent permitted by law, Buyer assumes all risks of use and handling of this material when such use and handling are contrary to label instructions.
